Coral SA is a leading supplier of polymer and chemical products, serving industrial customers across multiple sectors. Known for reliability, technical expertise, and customer-focused service, the company delivers materials that enhance manufacturing efficiency and performance. Beyond distribution, Coral SA has developed the Coralene Series—an in-house R-PET mixture ranging from 5% to 95%—to address specialized application needs. Based in Greece with a strong international network, the company serves clients worldwide, ensuring consistent quality, timely supply, and sustainable growth.

Polymer's Categories

1 High Density Polyethylene (HDPE)

- Blow Molding
- Film Extrusion
- Injection
- PE100/80/63

2 Medium Density Polyethylene (MDPE)

3 Low Density Polyethylene (LDPE)

- Film Extrusion (With or without Additives)
- Injection
- Lamination

4 Linear Low Density Polyethylene (LLDPE)

- Film Extrusion (With or Without Adds)
- Metallocene
- Injection Molding
- Roto Molding

5 Polypropylene Homopolymer (Homo PP)

- Raffia
- Injection
- Cast - BOPP Film

6 Polypropylene Copolymer (Copo PP)

- Injection
- Antistatic Grades

7 Random Copolymer (Random PP)

- Injection
- Medical Grades

8 Polyethylene terephthalate (PET)

- IV=0,76
- IV=0,80
- IV=0,84
- Fast reheat
- Coral R-PET 30%

9 PS

- EPS
- GPPS
- HIPS
- ABS

10 PVC

11 Recycled Polymers

12 BIO Compounds

13 EVA

Chemical products

The extensive range of CORAL S.A.'s chemical products meets the needs of every industrial sector:

- | | |
|---------------------|---------------------------|
| 1 MONOMERS | 12 ISOCYANATES |
| 2 HYDROCARBONS | 13 FATTY ACIDS |
| 3 AROMATICS | 14 SURFACTANTS |
| 4 ALCOHOLS | 15 AMINES |
| 5 KETONES | 16 INORGANICS |
| 6 ESTERS | 17 PTA |
| 7 GLYCOLS | 18 ACTIVES - SPECIALITIES |
| 8 GLYCOL ETHERS | 19 EXTRACTS |
| 9 HODer | 20 SOLVENTS |
| 10 PU FOR SLABSTOCK | 21 FILTERS |
| 11 PU FOR C.A.S.E. | |

Uses

- Production of chemical products
- Production of agro-chemicals
- Construction industry (building materials, paints, adhesives, varnishes, sealants, etc.)
- Production of inks, resins
- Production of packaging and printing products
- Production of lubricants
- Production of cosmetics and personal care products
- Pharmaceutical industry
- Automobile industry
- Production of homecare and cleaning products
- Production of personal care and hygiene products
- Production and processing of metals
- Electronics and electrical industry
- Wood, paper and mattresses industry
- Plastics and polyester industry
- Textiles, tobacco industry and production of footwear and leather goods
